Facilitated Enrollment for Child Health Plus, Family Health Plus and Medicaid New York State's Health Insurance Programs for Children and Adults

What is Facilitated Enrollment?

Facilitated Enrollment is a program that helps New York State Residents learn about and apply for health insurance for themselves and their children. Enrollers, located at convenient community sites, will assist families to complete the application, collect the needed documentation and submit the completed application to the appropriate agency. Eligibility is based in part on income guidelines determined by the New York State Department of Health.

- Children under the age of 19 may be eligible for : Child Health Plus
- Adults between the ages of 19-64 may be eligible for either: Medicaid or Family Health Plus

What is Child Health Plus?

Child Health Plus is a New York State health insurance program for children under age 19 that offers coverage for most of their health care needs. Eligibility is based on income, family size and immigration status. Even if your income is fairly high, you may be eligible for Child Health Plus. Depending on your income the coverage may be free or you may have a monthly contribution.

What is Family Health Plus?

Family Health Plus is New York State's health insurance program for adults aged 19 to 64 who have income or resources too high to qualify for Medicaid. Family Health Plus is available to single adults, couples without children, and parents who live in New York State and are United States citizens or fall under one of many immigrant categories.

What services will I receive with Family Health Plus, Child Health Plus or Medicaid?

Inpatient hospitalization, emergency care, out patient care, lab tests and x-rays, primary and preventive health care, vision, speech and hearing services, durable medical equipment, prescription drugs, dental care (limited with Family Health Plus), diabetic supplies, mental health services, alcohol and substance abuse treatment (some limits apply), well child care, immunizations, physical exams, and more.

Where do I start?
